

***ITAM Award
2017***

Criteria

The IT Asset Management Award is given to one or more professionals, organizations or initiatives that have contributed remarkably to securing and/or developing good IT Asset Management.

IT Asset Management is becoming a discipline in its own right. The IT Asset Management Award honors and celebrates those who have already contributed and/or are contributing to this development and at the same time have promoted good IT Asset Management beyond the ordinary.

Receivers of the ITAM Award are selected with the following criteria's in mind:

- Commitment*
- Ambition*
- Making a difference*
- Pioneering*
- Going beyond the ordinary*
- Going beyond own interests*
- "Promoting Transparent Licensing"*

The 2017 ITAM Award winner is

**Stanislav Pavlin,
Vodafone**

”Stanislav Pavlin has been elected as the winner of the ITAMOrg 2017 IT Asset Management Award”

The award is given in recognition of his highly inspirational and professional approach towards “Business driven IT Asset Management” at Vodafone.

- Stanislav has been the key driver at Vodafone in driving IT Asset Management as a business. His continued focus on the business side of IT Asset Management has been a key driver and enabler to take IT Asset Management to the level it has been at Vodafone, to establish a separate company within the group for Asset Management – he got the idea, proposed a business plan – and implemented it!

- His admirable approach has been shared at ITAMOrg conferences for the last two years, and has been an inspiration to many people and organizations in the industry. And it’s no surprise that these motivational speeches has been very well received.

- It is our hope that Stanislav will continue to drive IT Asset Management even further and not at least, to share his achievements and continue to inspire people in the industry in the years to come.
